

## 2024 International Risk Manager Survey

---

FERMA just launched the new edition of its [survey](#) on the Risk Management profession in January 2024, in partnership with PwC France, and, for the first time, with **international input**. This year's report will include data collected with the support of our partners **in the US** with [RIMS](#), **in Asia Pacific** with [PARIMA](#), **in Latin America** with [Alarys](#) and **in Africa** with [IRMSA](#) and [Club Francorisk](#).

The survey has been conducted for more than 20 years now, and represents the most complete landscape of the risk managers' perspective across Europe.

This new international survey will provide a unique global perspective on critical aspects of the risk management function in the context of a highly complex and rapidly expanding risk environment. **Key areas of focus** will include **corporate risk strategy, ESG, compliance, risk transfer, sustainability, innovation, and evolving risks** such as **climate and generative AI**.

### More about the survey:

---

- It is anonymous and available in 5 languages: English, French, German, Spanish and Italian
- It takes approximately 15-20 minutes to answer all the questions and you can return to answer the remaining questions through the same link
- It will be open from January to March 2024
- The report will be published in September 2024 and the results will be discussed at the FERMA Forum in October 2024 in Madrid during a dedicated session
